

AIR-DYNAMIC

ANYWHERE, ANYTIME.

Our Mission

Helicopter and Private Jet transfers are our business, life, and passion. The Team consists of highly qualified professionals ready to help you to reach any destination worldwide. Simply advise your point and time of departure/arrival, number of people, jet preference, and/or helicopter type (single or twin engine). We work to meet your needs and preferences and within a short period offer you competitive solutions on single and multiple-stage transfers that will get you from door to door safely and efficiently, relaxed and in style. Private jet transfers to any point in Europe, Middle East, the USA, or Asia, helicopter flights in Switzerland, Italy, and within Europe. Safety, comfort, and privacy, along with a dedicated service have consolidated the success of Air-Dynamic throughout the years.

20 years of experience and Aviation competence

We pride ourselves in having a comprehensive knowledge of the Aviation industry in all of its aspects for close to 20 years. From acquiring or selling aircraft, to market the aircraft through our solid and important client's portfolio on a daily basis operation with any kind of jet or helicopter transfer.

We know how to manage, charter and broker aircraft as needed and organize all what is required around it, ranging from full-service concierge assistance to hotels and luxury car services.

Private Helicopter Flights

A Helicopter transfer is the best solution to get across the Swiss Alps or to an island like Capri fast and comfortable without stopovers or traffic in Swiss mountain roads or in the famous Amalfi Coast. We guarantee the best prices for any kind of helicopter flight or transfer and all inclusive service without additional invoices after the fact. Be it for vacation, holiday or business.

Hollywood stars like Gwyneth Paltrow or Facebook founder Mark Zuckerberg, as well as famous artists like Michael Bublé or Elton John, have and continue to travel with us. We can organize a helicopter flight with the absolute minimum of notice to and from any location in Switzerland, Italy, Côte d'Azur, and throughout the greater EU. Just tell us the number of people, the quantity of luggage, and to/from where you would like to fly. We will take care of the entire logistics, landing permissions, and authorizations.

Private Jet Flights

Today, Air-Dynamic organizes scheduled and chartered jet transfers for individuals as well as for larger groups. Heavy jets such as the Falcon 7X, Challengers 850/605 and Legacy 600 for longer flights or smaller, practical yet comfortable jets such as the Cessna Series for shorter distances. Due diligence, constant research and tracking of the market allows us through proper planning, a superior alternative solution to what would otherwise be considered as a regular transfer at a competitive price. The objective on every occasion is value for money without compromise.

Sale, purchase and management of aircraft

You will always be satisfied.

Aircraft Purchase Consulting and Sale

- Advice and selection of the most suitable aircraft to each client's need based upon their budget, geographical position and objectives
- Legal and Fiscal Consultancy
- Financing Advice and Support
- Preparation of Business Plans

Aircraft Management

- Flight Planning
- Provision of CAMO solutions
- Management solutions

A private jet, registration HB-V00, is shown in flight, banking to the right. It is flying above a thick layer of white clouds. In the background, a range of mountains is visible under a clear blue sky with a few wispy clouds. The jet is white with dark accents and the registration 'HB-V00' is clearly visible on the tail.

Buy an aircraft

Private jets are the closest means possible to teleportation in the 21st Century. With a private jet, you can fly wherever and whenever you want and get there in an environment perfectly tailored to your taste. If you or your company has the means to purchase or lease or if you regularly charter such an aircraft, Air-Dynamic has extensive resources and experience in finding the right jet to suit your needs and budget.

In addition to consultancy throughout the purchase, we offer aircraft management throughout Italy and Switzerland or any other location where you may want your aircraft to be based (registered), and provide training, flight crews, maintenance, and operational oversight.

Air-Dynamic will assist you with all possible solutions on the management and on the daily operational aspects.

Sport / Vip Events Flight

Whether you're an athlete, a sports personality, or a supporter, we have the tools necessary to get you to the next match in a timely and relaxing manner. Our role is to free you from the constraints of organizing the trip. We will be available and responsible before, during, and after your flight to ensure the smooth running of the trip.

Our staff oversees every detail so that nothing is left to chance and nothing will disrupt the task at hand. We take care of all aspects, including logistics, scheduling, emergency service, and 24/7/365 availability, which allows athletes and personalities to focus solely on their goals and performances, and spectators to focus on enjoying their trip.

Off-Shore Private Yacht

Should you be looking for an offshore helicopter or floatplane support for your vessel we provide worldwide ad-hoc and seasonal helicopter services for yachts with the latest aircraft from the world's top manufacturers such as Leonardo, Airbus and Sikorsky. All aircraft are equipped for flights over water and crews have extensive offshore experience landing on ships. We take care of all aspects, including logistics, scheduling, emergency services and 24/7/365 availability, which allows you and your guests to focus solely on enjoying your trip.

Our concierge team service:

- Yacht rentals
- Luxury car rentals
- Hotel and Villas booking
- Catering services
- Ground Transfers

Aerial Work

Many aerial work and lifting problems can be resolved quickly and more cost-effectively by using a helicopter rather than a conventional crane. We offer an aerial-assisted service for a variety of tasks and operations. We can assist with most aerial tasks and if we can't we can offer helpful advice to source a helicopter solution for your enquiry.

What we can do for you:

- Any kind of aerial work
- Transport of materials
- Assembling and disassembling
- Aerial work in urban area
- Special transport

Club St.X

The St.X Club, which takes its inspiration from Antoine de Saint Exupéry, the French writer and aviator, was born out of a desire to provide members with services and aircraft suitable for the Ticino region and in particular suited to the runway limitations of the Lugano-Agno and Locarno airports but in general the Swiss airports. It was founded in 2018 and since then has acquired many valuable members.

It allows its members to travel comfortably within Switzerland to destinations such as Geneva, Sion, Gstaad, St. Moritz and throughout anywhere in Europe or further from the comfort of Lugano or Locarno, "we liked the idea of offering new stimuli and travel ideas to members, who then often also become friends and create exclusive and strategic business opportunities among themselves. Club members can also share flights and therefore also share costs.

We hope to see you soon on board as a member of Club St.X

Raffaella Melandri, Presidente

Pilatus PC-12 NG / PC-12 NGX

St.X's flagship aircraft is the Pilatus PC-12 NG, a comfortable aircraft for international airports, but also suitable for secondary airports and tertiary runways. A single-engine aircraft manufactured in Switzerland capable of operating on gravel, grass and dirt runways that can carry up to 8 passengers + 2 crew.

Always looking at the Future

Air-Dynamic SA, a proud supporter of the new generation of electric aircraft, will operate and manage Lilium Jets for its customers in Switzerland and Italy commencing in 2026-27, offering customers early access to the premium 'club configuration' Lilium Jet including the Lilium Pioneer Edition.

This partnership expands Lilium's reach into the high-end European business travel and tourism market. The first project's goal is to connect Lugano directly with Milan City Center and in parallel to establish a good connection in Italy for the most touristic destinations such as Lake Como and Capri».

Sebastien Borel, CCO of Lilium said: «With today's partnership, Lilium deepens its reach into Europe's premium travel market. We're leveraging Air-Dynamic's innovative and entrepreneurial approach to operating and managing private jets and helicopters in the region.

The partnership fits well in our commercial first phase strategy to engage the premium segment with our impressive Lilium Pioneer Edition Jet».

Lilium Jet: Electric VTOL

The Lilium Jet is powered by electric jet engines, which enable it to take off and land vertically like a helicopter. It utilizes ducted fans for propulsion, allowing for a quieter operation compared to traditional helicopters.

Here are some key features and details about the Lilium Jet: Electric VTOL:

- **Vertical Takeoff and Landing:**
This vertical capability allows it to operate in densely populated urban areas, utilizing existing infrastructure like rooftops or designated landing pads.
- **Capacity and Range:**
The Lilium Jet is designed to carry up to five passengers, including a pilot. It has an estimated range of around 175 kilometers on a single charge, making it suitable for short to medium-haul trips.
- **Speed:**
The Lilium Jet aims to achieve a top speed of around 280 km/h. This allows for fast and efficient transportation between urban centers and potentially reduces travel times compared to ground transportation.
- **Environmental Impact:**
As an all-electric aircraft, the Lilium Jet aims to reduce carbon emissions and noise pollution compared to traditional aircraft. By utilizing electric propulsion, it aims to contribute to sustainable and environmentally friendly urban air mobility.
